

# **YOUR HOUSE IN THE SPOTLIGHT**

# What we do!

## Blinqlab puts the spotlight on your house

Let us show the full potential of your property. By creating personal, customised floorplans and visualizations we make your presentation stand out.

Our team gives each house the proper attention to create stunning presentations for use on the internet, on your website, or in a brochure. All of our products are ordered and delivered efficiently and promptly via our highly automated processes.

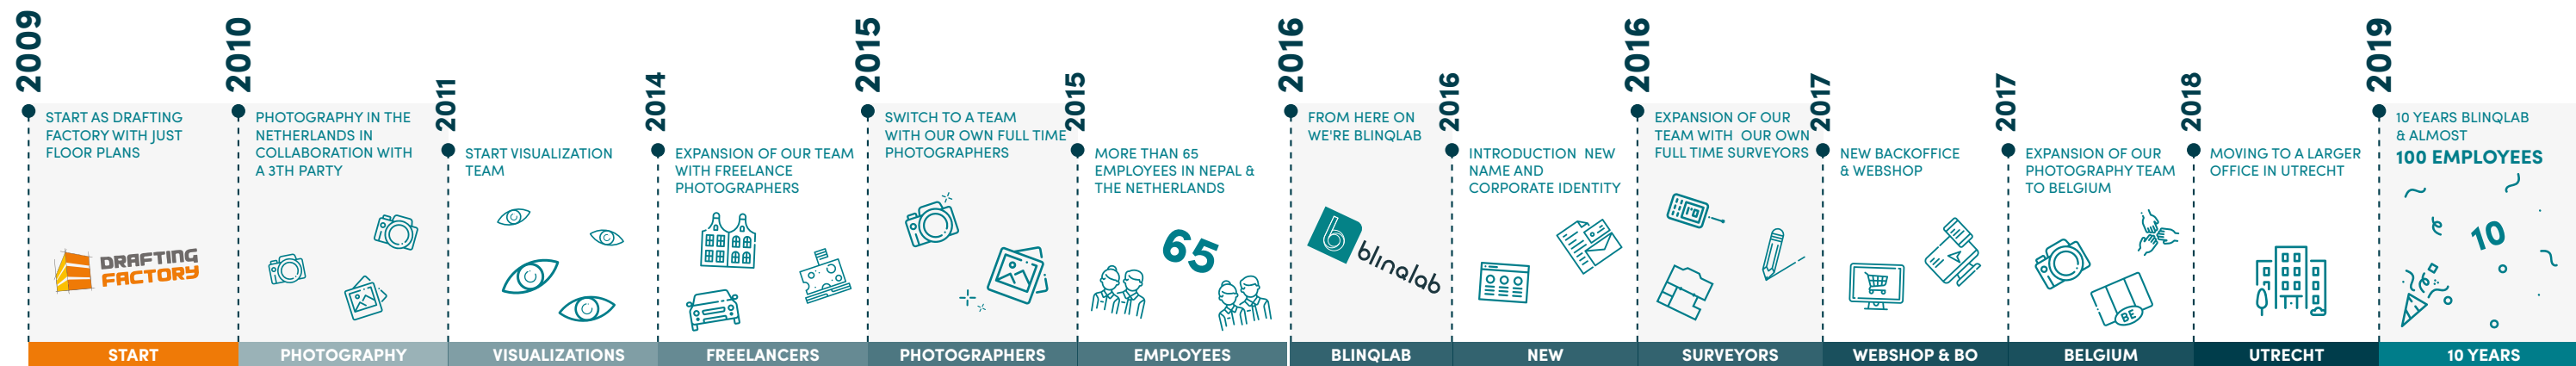

## Our products

Make sure that your property is presented optimally and distinctive to potential buyers and tenants. Blinqlab offers you different possibilities.

# Meet our team

We work with each other, side by side, look after each other, empower each other and we are there for each other almost 24/7 to ensure the quality and deadlines of your products. Cooperating is understanding whom you are working with. Our team would be happy to be introduced to you

Check our whole team at [www.blinglab.com](http://www.blinglab.com)

# Jolein tells...

## Manager operations

" At Blinqlab we combine the best of two cultures. The personal touch of Nepal combined with Dutch quality and efficiency. We believe in personal development through experience and training and within our company our colleagues develop their knowledge and responsibilities.

More than half of our employees in Nepal are women and we have colleagues from all the population layers. Thus, equal opportunities for everyone. That is something we are proud of! "

"Equal opportunities  
are provided to  
everyone."

## Nepal

We take our corporate social responsibility seriously. We find it important that we offer stability and certainty to our employees and their families. This means good salaries and ditto secondary benefits. We provide health insurance to all our staff and contribute to the school fees of their children. At the office we provide lunch freshly cooked by our Didi (Nepalese for elder sister).

## Floor plans

Show the potential of your property with our interactive 2D and 3D floor plans. The floor plan offers an overview of all dimensions and rooms. Potential buyers or tenants are offered the opportunity to take a look at your property from different perspectives.

Our plans are digital, interactive, and displayable both in 2D as well as in 3D. Also on your website!

## Bikay tells... Quality controller 🚩

"I have been working with Blinqlab for more than 9 years already. Everyday I review the different products and handle the production and deadlines. Besides that, I'm responsible for training the new staff members.

What I love most about my job is that my colleagues feel like family and it's a great team to work with. And it's nice to learn about the architecture & design of different countries as well. "

"My colleagues  
feel like family  
to me."

## tells...

Quality controller 🚩

"I was already interested in visualizations during my study architecture. A 3D visualization really helps an architect when we turn their designs into photo-realistic images. A few years ago, Blinqlab was my opportunity to follow my passion for visualizations and develop my skills.

I like the interaction with my team the most. They are so motivating and inspiring. As a quality controller I try to help and train my team as much as possible."

"They are so  
motivating and  
inspiring"

## Visualisations

Potential buyers often find it difficult to visualise the possibilities that a property offers. To help them with this, get an interior and/or exterior visualisation (or artist impression) made. Our artist impressions will help you visualise a building, give an up-to-date image of outdated property, and even provide an atmospheric and habitable impression of an empty property.

Our 360° visualisations and virtual tours let the potential buyer or tenant look around in the property. These are also suitable for the Google Cardboard and let the customers look around the rooms as if they are there.
